

Tuesday 18th April

I hope that all our readers had a restful and reflective Easter break. In the Lent period before Easter, we encouraged students to take time to reflect and spring clean, their heart, soul and mind and I hope that now Spring is well and truly here, that you are all able to look with fresh eyes at the year ahead.

The summer term, focuses us very acutely on the end goal for our oldest students, but it is still very much business as usual with all other year groups. Year 7 students undertake their first Examination Week next week and Year 8 to follow later in the month. Both year groups have received resources to support them in their revision (Year 8 will bring these home on Tuesday, the first day of term). These packs set out good general revision techniques as well as specific foci for each subject area. Please [click here](#) for electronic copies.

This week on Wednesday afternoon Year 10 students head to Suffolk One Sixth Form College to undertake some art work in a post-16 environment, as part of their studies.
