

Monday 11 September

This week students in Year 10 and 11 lead the way with their Charity week, supporting Cancer Research UK and funding volunteering work at a school in Namibia. The students have planned events to raise money throughout the week. These have a rather retro feel as they run The Space Hopper House Challenge and Hungry Hippos In action! Alongside the ubiquitous Cake Sale and annual Year 11 vs Staff Basketball Match, it looks like being a great week. On Friday the non-uniform theme, is wear something pink, in line with our supported charity.

Also this week, our brightest mathematicians in Year 10 and 11 will face the Intermediate Mathematics Challenge, a national competition with multiple choice questions. This makes it sound easy but believe me, the questions require logic and problem-solving skills in abundance. There is no value in guessing, with wrong answers deducting marks!

On Wednesday, we welcome Year 7 Parents and Carers for their Parents' Evening, with a chance to talk to all their subject teachers. Parents and Carers should talk to their child to understand the booking process. If you are new to the school and at all unclear, please contact us.
