

Monday 21 January 2019

Thank you to all students for getting behind our Charity Week last week. We raised a sum of £957.00, which will be split between Motor Neurone Disease Association and Blossom. The week had some super events; it was especially pleasing to see the Staff Basketball Team get back to winning ways this year!

This week Year 9 students have their formal examination week. These synoptic assessment weeks are part of the calendar for every year group. Each year group has a similar week, which is placed carefully to inform and support students' learning. This week comes before Year 9 start to make decisions about options for GCSE, hence giving them a clear understanding of where they are now, before making those choices.

While I am not expecting any reasons for closure, please know that if the school is ever closed unexpectedly, it will be posted here on our website and all parents and carers will receive a text message and email from the school informing them of the closure.
