

Friday 7 October 2019

It was wonderful to see so many parents, carers and students at the Open Evening on Thursday last week. Please **click here** to see a copy of the slides from the presentation at the end of the evening. This includes key dates for the application and the transition process. 2019. Please click on the link above to register your interest in us (and you currently do not attend one of our catchment Primary Schools).

We have had a run of information evenings in the last three weeks. Our slides from these are found by clicking here.

All information shared with parents, in letters and such evenings, are always updated on the “News” section of our website for your reference.

Next week we are hosting our Year 7 and 8 Parents and Carers Learning Together evening. During this evening we will be offering Parents and Carers workshops with our strategies and advice, based on research and evidenced work with other professionals, on E-safety, Learning to learn and Positive Mental Health.

We hope the weather is a little drier this week for the following trips and visits that are taking place:

Monday and Tuesday: Year 9 students go to Aldeburgh for their Geography fieldtrip

Wednesday: Year 8 students head out on their Art, Design and Technology trip

Thursday: Students across all year groups compete in the Area Cross-Country

We look forward to meeting students from Year 6 on Friday at their first liaison morning.

Julia Upton
