

Monday 31<sup>st</sup> January 2022

We have this week sent out a number of letters detailing some of the more exciting but “usual” events in the Summer term. As I said last week I am very hopeful that as the year progresses we have increasing freedoms to get back to even more of those extra-curricular activities which are so valued by staff and pupils alike.

Parents in Year 9 will have seen the activities booklet for the end of term activities week and other year groups will be receiving these shortly. It is exciting to be able to be planning these events with the expectation of these happening. We have also asked that students in Year 10 start looking at possible work experience placements for the Summer term, I am hopeful that as people return to work that the offer of places for our students will be substantial. It is such an important part of the offer for Year 10 and helps students not only consider their possible future pathways but perhaps more importantly allows students to further develop other skills that are so important for their wider lives.

We also have the Vaccination team in this week to complete the Flu vaccinations for our students. This will be followed by the second Covid-19 vaccination in near future for our students.

Thank you to all parents who responded to the survey on well-being and emotional health. Overall it was a very positive response but there are some things which we will consider and feedback to parents on over the next few weeks. As ever if there are any individual concerns or worries please do get in touch.

With Warmest Wishes

Simon Martin  
Headteacher

“Each of you should use whatever gift you have received to serve others, as faithful stewards of God’s grace in its various forms.”

**1 Peter 4:10**
